

Geraldine Riley

Called: 2002

Areas of Law: Crime

Geraldine Riley specialises in all aspects of road traffic law. She is as equally adept at defending cases based on legal submissions as on contested factual points.

Geraldine receives instructions from top profile solicitors and clients in traffic matters. As well as being able to conduct cases, Geraldine appreciates the importance of client care and her social skills usually give her a good rapport with clients, many of whom will never have had any experience of court hearings and who may be facing the strain of loss of licence and possible loss of job.
